OCTOBER 2006 NO.273 \$8.50 (NZ \$9.50)

## BRIEFS

### Sand flags on sale

■ ARB Gawler is making sand flags for desert travellers. Each flag (which includes flag and pole) is 2.5 metres high and folds to 650mm for storage. Made in-house, the sand flags are designed to mount on a bullbar's aerial mount. The flags retail for \$69 and can be posted to customers. To order a flag, call 08 8523 2411.

### Alcohol rethink

■ Mapoon Shire, on the western side of the Cape York peninsula, has relaxed its stringent alcohol restrictions. The total amount of alcohol per person (or per vehicle) that can be carried within Mapoon Shire is two litres of wine, plus either three 30-can cartons of light/mid-strength beer or 60 cans of beer and 24 cans of pre-mixed spirits.

### Find a spare part

■ Mike King has made searching for spare vehicle parts easier, launching [www.findapart.com.au](http://www.findapart.com.au), a website that has more than 450 wreckers on its database. The site is free and simple to use: just key in the part you are looking for and the site sends your request to a supplier who will then email you with prices, quotes and availability. For more info call 02 9544 7820.

### Subaru SI-Drive

■ Top-spec 2007-model Subaru Outbacks will have new Subaru Intelligent Drive (SI-Drive). This technology offers three drive modes: Intelligent mode, which is designed for around-town driving economy; Sport mode, for flowing, urban roads; and Sport #, aimed at better throttle response. Modes are selected via a centre console dial or steering wheel controls. The MY07 Outback is scheduled for a September 2006 release.
